¹⁾ De Regering van Egypte heeft op 31 januari 1995 medegedeeld dat bij de akte van toetreding op 8 januari 1993 de volgende verklaringen hadden dienen te worden afgelegd:

"First declaration: passage of ships carrying hazardous wastes through the Egyptian territorial sea

The Arab Republic of Egypt, upon acceding to the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and their Disposal, which was done on 22 March 1989 and is referred to hereafter as "the Convention", and, in accordance with article 26 of the Convention,

Declares that:

1. In accordance with the provisions of the Convention and the rules of international law regarding the sovereign right of the State over its territorial sea and its obligation to protect and preserve the marine environment, since the passage of foreign ships carrying hazardous or other wastes entails many risks which constitute a fundamental threat to human health and the environment; and in conformity with Egypt's position on the passage of ships carrying inherently dangerous or noxious substances through its territorial sea (United Nations Convention on the Law of the Sea, 1983), the Government of the Arab Republic of Egypt declares that foreign ships carrying hazardous or other wastes will be required to obtain prior permission from the Egyptian authorities for passage through its territorial sea.

2. Prior notification must be given of the movement of any hazardous wastes through areas under its national jurisdiction, in accordance with article 2, paragraph 9, of the Convention.

Second declaration: imposition of a complete ban on the import of hazardous and other wastes

The Arab Republic of Egypt, upon acceding to the Basel Convention on the

Control of Transboundary Movements of Hazardous Wastes and their Disposal, which was signed on 22 March 1989 and is referred to below as "the Convention", and in accordance with article 26 of the Convention,

Declares that:

1. In accordance with its sovereign rights and with article 4, paragraph 1 (a), of the Convention, a complete ban is imposed on the import of all hazardous or other wastes and on their disposal on the territory of the Arab Republic of Egypt. This confirms Egypt's position that the transportation of such wastes constitutes a fundamental threat to the health of people, animals and plants and to the environment.

Third declaration

Declaration by Bahrain, Belgium, Benin, the Commission of the European Union, Côte d'Ivoire, Denmark, Egypt, the Federal Republic of Germany, Finland, France, the German Democratic Republic, Ghana, Greece, Hungary, Italy, Jordan, Kenya, Kuwait, Lebanon, Luxembourg, Malaysia, Malta, Namibia, Netherlands, Niger, Norway, the Philippines, Portugal, Saudi Arabia, Senegal, Sweden, Switzerland, Turkey, the United Arab Emirates and the United Kingdom of Great Britain and Northern Ireland.

The Governments of Bahrain, Belgium, Benin, Côte d'Ivoire, Denmark, Egypt, the Federal Republic of Germany, Finland, France, the German Democratic Republic, Ghana, Greece, Hungary, Italy, Jordan, Kenya, Kuwait, Lebanon, Luxembourg, Malaysia, Malta, Namibia, Netherlands, Niger, Norway, the Philippines, Portugal, Saudi Arabia, Senegal, Sweden, Switzerland, Turkey, the United Arab Emirates, and the United Kingdom of Great Britain and Northern Ireland, as well as the Commission of the European Union, which will sign the Convention and/or the final document referring to the Control of Transboundary Movements of Hazardous Wastes and their Disposal, (referred to hereafter as "the Convention").

Concerned that the transboundary movement of hazardous wastes constitutes a great danger to the health of both humans and the environment,

Considering that the developing countries have a limited ability to manage wastes, especially hazardous wastes, in an environmentally sound manner,

Believing that a reduction in the production of hazardous wastes and their disposal in environmentally sound conditions in the country which exports them must be the goal of waste management policy,

Convinced that the gradual cessation of transboundary movements of hazardous wastes will undoubtedly be a major incentive to the development of appropriate national facilities for the disposal of wastes,

Recognizing the right of every State to ban the import to or export from its territory of hazardous wastes,

Welcoming the signature of the Convention,

Believing it necessary, before applying the provisions of the Convention, to impose immediate and effective control on transboundary movement operations, especially to developing countries, and to reduce them,

Declare the following:

1. The signatories to this Convention affirm their strong determination that wastes should be disposed of in the country of production.

2. The signatories to this Convention request States which accede to the Convention to do so, by making every possible effort to effect a gradual cessation of the import and export of wastes for reasons other than their disposal in facilities which will be set up within the framework of regional cooperation.

3. The signatories to this Convention will not permit wastes to be imported to or exported from countries deficient in the technical, administrative and legal

expertise in administering wastes and disposing of them in an environmentally sound manner.

4. The signatories to this Convention affirm the importance of assistance to develop appropriate facilities intended for the final disposal of wastes produced by countries referred to in paragraph 3 above.

5. The signatories to this Convention stress the need to take effective measures within the framework of the Convention to enable wastes to be reduced to the lowest possible level and to be recycled.” (*VN-vertaling*)

De Regering van het Verenigd Koninkrijk van Groot-Brittannië en Noord-Ierland heeft op 9 oktober 1995 tegen deze verklaringen het volgende bezwaar gemaakt:

“The Government of the United Kingdom of Great Britain and Northern Ireland cannot accept the first declaration of Egypt (passage of ships carrying hazardous wastes through the Egyptian territorial sea) Not only was this declaration out of time, but like all other declarations to similar effects, it is unacceptable in substance. In this connection, the United Kingdom Government recalls its own statement upon signature confirmed upon ratification, which reads as follows:” [Zie *Trb.* 1993, 72, blz. 3].

De volgende regeringen hebben op 13 oktober 1995 tegen deze verklaringen de volgende bezwaren gemaakt:

Finland

“The Government of Finland has studied the communication of the Government of Egypt, dated 31 January 1995, where it informs that at the time of acceding to the Convention (in January 1993), certain declarations should have been accompanying the instrument of accession. These declarations not having been transmitted, the Government of Egypt has transmitted them in January 1995 declaring, inter alia, that ‘foreign ships carrying hazardous or other wastes will be required to obtain prior permission from the Egyptian authorities for passage through its territorial sea’. Egypt also declares that ‘a complete ban is imposed on the import of all hazardous or other wastes and on their disposal on the territory of the Arab Republic of Egypt.’

In the view of the Government of Finland the declarations of Egypt raise certain legal questions. Article 26.1 of the Basel Convention prohibits any reservation or exception to the Convention. However, according to Article 26.2 a State can, when acceding to the Convention, make declarations or statements ‘with a view, inter alia, to the harmonization of its laws and regulations with the provisions of this Convention.....’.

Without taking any stand to the content of the declarations, which appear to be reservations in nature, the Government of Finland refers to Article 26.2 of the Basel Convention and notes that the declarations of Egypt have been made too late. For this reason the Government of Finland objects to the declarations and considers them devoid of legal effect.”

Italië

“The Italian Government refers to the communication from the Egyptian Government of 31 January 1995, transmitting to the office of the Secretary-General several declarations which, as stated in that communication, should have been transmitted at the same time of the accession of Egypt to the Basel Convention (8 January 1993).

In particular, Egypt declares that “foreign ships carrying hazardous or other wastes will be required to obtain prior permission from the Egyptian authorities for passage through its territorial sea” and that “a complete ban is imposed on the import of all hazardous or other wastes and on their disposal on the territory of the Arab Republic of Egypt.”

The Italian Government objects to the deposit of the aforementioned declarations since, in its opinion, they should be considered as reservations to the Basel Convention and the possibility of making reservations is excluded under article 26, paragraph 1, of the Convention.

In any event, article 26, paragraph 2, stipulates that a State may, within certain limits, formulate declarations only “when signing, ratifying, accepting, approving, ... confirming or acceding to this Convention”.

For these reasons, the deposit of the aforementioned declarations cannot be allowed, regardless of their content.” (*VN-vertaling*)
het *Koninkrijk der Nederlanden*

“The Kingdom of the Netherlands has examined the declarations made by Egypt on 31 January 1995 concerning the Basel Convention on the control of transboundary movements of hazardous wastes and their disposal. While the second and third declarations do not call for observations by the Kingdom, the first declaration establishing the requirement of prior permission for passage through the Egyptian territorial sea is not acceptable.

The Kingdom of the Netherlands considers the first declaration to be a reservation to the (Basel) Convention. The Convention explicitly prohibits the making of reservations in Article 26 par. 1. Moreover, this reservation has been made two years after the accession of Egypt to the (Basel) Convention, and therefore too late.

Consequently the Kingdom of the Netherlands considers the declaration on the requirement of prior permission for passage through the territorial sea made by Egypt a reservation which is null and void.”

De Regering van Zweden heeft op 16 oktober 1995 tegen deze verklaringen het volgende bezwaar gemaakt:

“The Government of Sweden cannot accept the declarations made by the Government of Egypt

First, these declarations were made almost two years after the accession by Egypt contrary to the rule laid down in Article 26, paragraph 2 of the Basel Convention.

Second, the content of the first of these declarations must be understood to constitute a reservation to the Convention, whereas the Basel Convention explicitly prohibits reservations (Article 26, paragraph 1).

Thus, the Government of Sweden considers these declarations null and void.”

Gezien deze bezwaren en de in dergelijke gevallen gevolgde praktijk is de depositaris van mening dat hij de door Egypte afgelegde verklaringen niet kan aanvaarden.

²⁾ Onder de volgende verklaring:

“With respect to article 20, paragraph 2 of the Convention, the Government of Saint Kitts and Nevis declares that it recognizes submission to arbitration in accordance with the procedures and the conditions set out in Annex VI to the Convention, as compulsory ipso facto.”

³⁾ Onder de volgende verklaring:

“The Government of the Republic of Cuba declares, with regard to article 20 of the Basel Convention on the Control of Transboundary Movements of Hazardous Wastes and Their Disposal, that any disputes between Parties as to the interpretation or application of, or compliance with, this Convention or any protocol thereto, shall be settled through negotiation through the diplomatic channel or submitted to arbitration under the conditions set out in Annex VI on arbitration.”
