¹ Populations of Botswana, Namibia and South Africa (listed in Appendix II):

For the exclusive purpose of allowing:

- 1) trade in hunting trophies for non-commercial purposes;
- 2) trade in live animals for *in situ* conservation programmes;
- 3) trade in hides;
- 4) trade in leather goods; for non-commercial purposes for Botswana; for commercial or non-commercial purposes for Namibia and South Africa;
- 5) trade in hair for commercial or non-commercial purposes for Namibia;
- 6) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia; and
- 7) trade in registered raw ivory (for Botswana and Namibia, whole tusks and pieces; for South Africa, whole tusks and cut pieces of ivory that are both 20 cm or more in length and 1 kg or more in weight) subject to the following:
 - i) only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin) and, in the case of South Africa, only ivory originating from the Kruger National Park);
 - ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP12) concerning domestic manufacturing and trade;
 - iii) not before the Secretariat has verified the prospective importing countries, and the MIKE programme has reported to the Secretariat on the baseline information (e.g. elephant population numbers, incidence of illegal killing);
 - iv) a maximum of 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa) of ivory may be traded, and despatched in a single shipment under strict supervision of the Secretariat;
 - v) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and
 - vi) only after the Standing Committee has agreed that the above conditions have been met.

On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries, or in the case of proven detrimental impacts of the trade on other elephant populations.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

² Population of Zimbabwe (listed in Appendix II):

For the exclusive purpose of allowing:

- 1) export of hunting trophies for non-commercial purposes;
- 2) export of live animals to appropriate and acceptable destinations;
- 3) export of hides; and
- 4) export of leather goods and ivory carvings for non-commercial purposes.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly. To ensure that where a) destinations for live animals are to be appropriate and acceptable and/or b) the purpose of the import is to be non-commercial, export permits and re-export certificates may be issued only after the issuing Management Authority has received, from the Management Authority of the State of import, a certification to the effect that, in case a), in analogy to Article III, paragraph 3 (b) of the Convention, the holding facility has been reviewed by the competent Scientific Authority, and the proposed recipient has been found to be suitably equipped to house and care for the animals; and/or in case b), in analogy to Article III, paragraph 3 (c), the Management Authority is satisfied that the specimens will not be used for primarily commercial purposes.

³ Population of Argentina (listed in Appendix II):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas, in cloth, and in derived manufactured products and other handicraft artefacts. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUNA-ARGENTINA'. Other products must bear a label including the logotype and the designation 'VICUNA-ARTESANIA'. All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

⁴ Population of Bolivia (listed in Appendix III):

For the exclusive purpose of allowing international trade in: a) wool and products derived therefrom sheared from live animals of the populations of the Conservation Units of Mauri-Desaguadero, Ulla Ulla and Lipez-Chichas; and b) products made from wool sheared from live animals of the rest of the population of Bolivia. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUÑA-BOLIVIA'. Other products must bear a label including the logotype and the designation 'VICUÑA-BOLIVIA-ARTESANIA'. All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

⁵ Population of Chile (listed in Appendix II):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas, and in cloth and items made thereof, including luxury handicrafts and knitted articles. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUNA-CHILE'. Other products must bear a label including the logotype and the designation 'VICUNA-CHILE-ARTESANIA'. All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

⁶ Population of Peru (listed in Appendix II):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas and in the stock extant at the time of the ninth meeting of the Conference of the Parties (November 1994) of 3249 kg of wool, and in cloth and items made thereof, including luxury handicrafts and knitted articles. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUÑA-PERÚ'. Other products must bear a label including the logotype and the designation 'VICUÑA-PERÚ-ARTESANIA'. All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

^b Artificially propagated specimens of hybrids of the genera *Cymbidium*, *Dendrobium*, *Phalaenopsis* and *Vanda* are not subject to the provisions of the Convention when:

- 1) the specimens are traded in shipments consisting of individual containers (i.e. cartons, boxes or crates) each containing 20 or more plants of the same hybrid;
- 2) the plants within each container can be readily recognized as artificially propagated specimens by exhibiting a high degree of uniformity and healthiness; and
- 3) the shipments are accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid.

Artificially propagated specimens of the following hybrids:

- *Cymbidium*: Interspecific hybrids within the genus and intergeneric hybrids
- *Dendrobium*: Interspecific hybrids within the genus known in horticulture as "nobile-types" and "phalaenopsis-types"
- *Phalaenopsis*: Interspecific hybrids within the genus and intergeneric hybrids
- *Vanda*: Interspecific hybrids within the genus and intergeneric hybrids

are not subject to the provisions of the Convention when:

- 1) they are traded in flowering state, i.e. with at least one open flower per specimen, with reflexed petals;
- 2) they are professionally processed for commercial retail sale, e.g. labelled with printed labels and packaged with printed packages;
- 3) they can be readily recognized as artificially propagated specimens by exhibiting a high degree of cleanliness, undamaged inflorescences, intact root systems and a general absence of damage or injury that could be attributable to plants originating in the wild;
- 4) the plants do not exhibit characteristics of wild origin, such as damage by insects or other animals, fungi or algae adhering to leaves, or mechanical damage to inflorescences, roots, leaves or other parts resulting from collection; and
- 5) the labels or packages indicate the trade name of the specimen, the country of artificial propagation or, in the case of international trade during the production process, the country where the specimen was labelled and packaged; and the labels or packages show a photograph of the flower, or demonstrate by other means the appropriate use of labels and packages in an easily verifiable way.

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.

Verklaringen, voorbehouden en bezwaren

Zie voor het overzicht van de voorbehouden van partijen ten aanzien van soorten in de Bijlagen de website van CITES, www.Cites.org/eng/app/reserve_latest.shtml.

Argentinië, 8 januari 1981

Las Islas Malvinas integran el territorio de la República Argentina y dependen administrativamente del Territorio Nacional de la Tierra del Fuego, Antártida e Islas del Atlántico Sur. La ocupación que detiene el Reino Unido, en virtud de un acto de fuerza jamás aceptado por la República Argentina, llevó a la Organización de las Naciones Unidas a que mediante las Resoluciones número 2065 y 3160 invitase a ambas Partes a encontrar una solución pacífica acerca de la disputa de soberanía sobre dichas Islas, negociaciones que se hallan en curso.

Bezwaar door Verenigd Koninkrijk, het, 13 februari 1981

The Government of the United Kingdom of Great Britain and Northern Ireland have no doubt as to United Kingdom sovereignty over the Falkland Islands and their Dependencies. The United Kingdom Government therefore do not accept the declaration of the Argentine Republic claiming that the Falkland Islands are an integral part of the territory of the Argentine Republic and administered by the National Territory of Tierra del Fuego, Antarctica and the Islands of the South Atlantic.

Argentinië, 3 oktober 2005

The Declaration made by Argentina on January 8, 1981, rejecting the declaration of territorial application presented by the United Kingdom on August 2, 1976, applies – as it is clear from its text – to all territories that the country has pretended or pretends to include under the denomination “Malvinas Islands and its Dependencies”.

China, 6 december 1999

In accordance with Article 9 of the Convention, it designates the Economic Service of Macao as the Management Authority of the Macao Special Administrative Region. The Government of the People's Republic of China shall assume responsibility for the international rights and

obligations arising from the application of the Convention to the Macao Special Administrative Region.

Denemarken, 26 juli 1977

La ratification porte sur l'ensemble du Royaume de Danemark, y compris le Groenland et les îles Féroé. Toutefois la mise en application de la Convention pour les îles Féroé ne s'accomplira qu'au moment où les autorités féroïennes auront mis en place la législation nécessaire, ce qui, selon les prévisions, aura lieu dans un avenir prochain. A ce propos, il y a lieu de signaler qu'en vertu de la loi danoise No 137 du 23 mars 1948 le pouvoir législatif a été transféré aux îles Féroé pour ce qui concerne, entre autre, la protection de la nature, y compris la protection des espèces de flore et de faune. Comme le commerce fait sur les îles de Féroé avec les espèces de faune et de flore menacées d'extinction et visées par la Convention est extrêmement limité et se réalise essentiellement via le Danemark, l'ajournement de la mise en vigueur de la Convention pour les îles Féroé n'aura aucune influence réelle sur la réalisation des objectifs de la Convention.

Denemarken, 26 juli 2004

Given the fact that the issue of the extent of the territorial application of the convention with regard to the Faroe Islands has been raised, Denmark would like to recall that it made the following declaration on the occasion of Danish ratification of the Convention on 26 July 1977:

“La ratification porte sur l'ensemble du Royaume de Danemark, y compris le Groenland et les îles Féroé. Toutefois la mise en application de la Convention pour les îles Féroé ne s'accomplira qu'au moment où les autorités féroïennes auront mis en place la législation nécessaire, ce qui, selon les prévision, aura lieu dans un avenir prochain. A ce propos, il y a lieu de signaler qu'en vertu de la loi danoise No 137 du 23 mars 1948 le pouvoir législatif a été transféré aux îles Féroé pour ce qui concerne, entre autre, la protection de la nature, y compris la protection des espèces de flore et de faune. Comme le commerce fait sur les îles de Féroé avec les espèces de faune et de flore menacées d'extinction et visées par la Convention est extrêmement limité et se réalise essentiellement via le Danemark, l'ajournement de la mise en vigueur de la Convention pour les îles Féroé n'aura aucune influence réelle sur la réalisation de objectifs de la Convention.”

Denmark would like to clarify the purpose and intention of this declaration, which is as follows: Until further notice the Convention shall not apply to the Faroe Islands. This has been the position of the Danish government since the ratification by Denmark, and it continues to be the Danish position until further notice.

IJsland, 3 januari 2000

In the view of Iceland the inclusion of some species in the appendices

of the Convention is inconsistent with Article II of the Convention and the biological criteria agreed on within CITES for such inclusion. A number of the cetaceans which are included in the appendices are a good example of this.

It was decided that, upon acceding to the Convention, Iceland would only enter reservations with regard to the species that occur within its national jurisdiction which are, in the view of Iceland, inappropriately included in the appendices. This should, however, not be interpreted as Iceland's acceptance of the appropriateness of all other inclusions in the appendices.

If new scientific evidence will show that species regarding which Iceland has made reservations are in fact appropriately included in the appendices, Iceland will reassess the relevant reservations.

Iceland considers it to be important in order for CITES to fulfill its purpose that a review of all present inclusions in the appendices will be carried out in an effective and transparent manner and completed as soon as possible. The review should be objective and ensure that all inclusions in the appendices are consistent with Article II of the Convention and the biological criteria agreed on within CITES.

Russische Federatie, 13 januari 1992

The Russian Federation continues to perform the rights and fulfil the obligations following from the international agreements signed by the Union of the Soviet Socialist Republics. Therefore, the Ministry kindly requests to consider the Russian Federation as a Party to all international agreements in force instead of the USSR.

Syrië, 30 april 2003

The accession of the Syrian Arab Republic to this Convention shall in no way signify recognition of Israel or entail entry into any dealings with Israel in the context of the provisions of the Convention.

Bezoar door Israël, 10 november 2003

The Government of the State of Israel has noted that the instrument of ratification of the Syrian Arab Republic to the above-mentioned Convention contains declarations with respect to the State of Israel.

The Government of the State of Israel is of the view that such declarations, which are explicitly of a political nature, are incompatible with the purposes and objectives of this Convention.

The Government of the State of Israel therefore objects to the aforesaid declarations made by the Syrian Arab Republic to the Convention on International Trade in Endangered Species, 1973.

Verklaringen, voorbehouden en bezwaren

Japan, 20 augustus 1990

The Embassy of Japan presents its compliments to the Federal Department of Foreign Affairs and, with regard to the Notification p.o.412.30 on 25th June concerning the Acceptance of the amendment to Article XI (3)(a) of the Convention on International Trade in Endangered Species of Wild Fauna and Flora by the Soviet Union, has the honour to inform the latter of the following view of the Government of Japan. In accordance with article XVII (3) of the above-mentioned Convention, the amendment should enter into force for Soviet Union also 60 days after it deposits its instrument of acceptance of the amendment. The Government of Japan cannot find any grounds for justifying the entering into force of the above-mentioned amendment on 1st January 1991 as was designated by the Soviet Union.
