

TRACTATENBLAD

VAN HET

KONINKRIJK DER NEDERLANDEN

JAARGANG 2013 Nr. 61

A. TITEL

*Overeenkomst inzake de internationale handel in bedreigde in het wild levende dier- en plantensoorten;
(met Bijlagen)
Washington, 3 maart 1973*

B. TEKST

De Engelse en de Franse tekst van de Overeenkomst zijn geplaatst in *Trb.* 1975, 23.

Voor de Franse en de Engelse tekst van de wijziging van 22 juni 1979, zie rubriek J van *Trb.* 1981, 232.

Voor de Franse en de Engelse tekst van de wijziging van 30 april 1983, zie rubriek J van *Trb.* 1984, 47.

Voor de geconsolideerde Engelse tekst van de Bijlagen zoals die luidt vanaf 28 mei 2003, zie rubriek J van *Trb.* 2003, 113.

Voor de Engelse tekst van de op 16 oktober 2003 in werking getreden wijziging van Bijlage III, zie *Trb.* 2004, 330.

Voor de Engelse tekst van de op 12 januari 2005 in werking getreden wijziging van de Bijlagen I en II en de op 17 februari 2005 in werking getreden wijziging van Bijlage III, zie *Trb.* 2005, 192.

Voor de gewijzigde Engelse tekst van de Bijlagen, met inbegrip van de wijzigingen van Bijlage III van 16 maart 2006 en 2 februari 2007, zie *Trb.* 2007, 100.

Voor de geconsolideerde Engelse tekst van de Bijlagen zoals die luidt vanaf 27 april 2011, zie *Trb.* 2011, 232.

In overeenstemming met artikel XVI van de Overeenkomst zijn op 23 september 2011, 4 januari 2012 en 27 juni 2012 wijzigingen in Bijlage III medegedeeld.

De geconsolideerde Engelse tekst van de Bijlagen I, II en III, met inbegrip van bovenstaande wijzigingen, luidt sinds 25 september 2012 als volgt:

Appendices I, II and III

valid from 25 September 2012

Interpretation

1. Species included in these Appendices are referred to:
 - a) by the name of the species; or
 - b) as being all of the species included in a higher taxon or designated part thereof.
2. The abbreviation “spp.” is used to denote all species of a higher taxon.
3. Other references to taxa higher than species are for the purposes of information or classification only. The common names included after the scientific names of families are for reference only. They are intended to indicate the species within the family concerned that are included in the Appendices. In most cases this is not all of the species within the family.
4. The following abbreviations are used for plant taxa below the level of species:
 - a) “ssp.” is used to denote subspecies; and
 - b) “var(s).” is used to denote variety (varieties).
5. As none of the species or higher taxa of FLORA included in Appendix I is annotated to the effect that its hybrids shall be treated in accordance with the provisions of Article III of the Convention, this means that artificially propagated hybrids produced from one or more of these species or taxa may be traded with a certificate of artificial propagation, and that seeds and pollen (including pollinia), cut flowers, seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers of these hybrids are not subject to the provisions of the Convention.
6. The names of the countries in parentheses placed against the names of species in Appendix III are those of the Parties submitting these species for inclusion in this Appendix.
7. When a species is included in one of the Appendices, all parts and derivatives of the species are also included in the same Appendix unless the species is annotated to indicate that only specific parts and derivatives are included. The symbol # followed by a number placed against the name of a species or higher taxon included in Appendix II or III refers to a footnote that indicates the parts or derivatives of plants that are designated as “specimens” subject to the provisions of the Convention in accordance with Article I, paragraph (b), subparagraph (iii).

¹ Population of Argentina (listed in Appendix II):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas, in cloth, and in derived manufactured products and other handicraft artefacts. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUÑAARGENTINA'. Other products must bear a label including the logotype and the designation 'VICUÑA-ARGENTINA-ARTESANÍA'.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

² Population of Chile (listed in Appendix II):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas, and in cloth and items made thereof, including luxury handicrafts and knitted articles. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which

are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUÑACHILE'. Other products must bear a label including the logotype and the designation 'VICUÑA-CHILE-ARTESANÍA'.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

³ Population of Peru (listed in Appendix II):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas and in the stock extant at the time of the ninth meeting of the Conference of the Parties (November 1994) of 3249 kg of wool, and in cloth and items made thereof, including luxury handicrafts and knitted articles. The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUÑA-PERÚ'. Other products must bear a label including the logotype and the designation 'VICUÑA-PERÚ-ARTESANÍA'.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

⁴ Population of the Plurinational State of Bolivia (listed in Appendix II):

For the exclusive purpose of allowing international trade in wool sheared from live vicuñas, and in cloth and items made thereof, including luxury handicrafts and knitted articles.

The reverse side of the cloth must bear the logotype adopted by the range States of the species, which are signatories to the *Convenio para la Conservación y Manejo de la Vicuña*, and the selvages the words 'VICUÑA-BOLIVIA'. Other products must bear a label including the logotype and the designation 'VICUÑA-BOLIVIA-ARTESANÍA'.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

⁵ Populations of Botswana, Namibia, South Africa and Zimbabwe (listed in Appendix II):

For the exclusive purpose of allowing:

- a) trade in hunting trophies for non-commercial purposes;
- b) trade in live animals to appropriate and acceptable destinations, as defined in Resolution Conf. 11.20, for Botswana and Zimbabwe and for *in situ* conservation programmes for Namibia and South Africa;
- c) trade in hides;
- d) trade in hair;
- e) trade in leather goods for commercial or non-commercial purposes for Botswana, Namibia and South Africa and for non-commercial purposes for Zimbabwe;

f) trade in individually marked and certified ekipas incorporated in finished jewellery for non-commercial purposes for Namibia and ivory carvings for non-commercial purposes for Zimbabwe;

g) trade in registered raw ivory (for Botswana, Namibia, South Africa and Zimbabwe, whole tusks and pieces) subject to the following:

i) only registered government-owned stocks, originating in the State (excluding seized ivory and ivory of unknown origin);

ii) only to trading partners that have been verified by the Secretariat, in consultation with the Standing Committee, to have sufficient national legislation and domestic trade controls to ensure that the imported ivory will not be re-exported and will be managed in accordance with all requirements of Resolution Conf. 10.10 (Rev. CoP14) concerning domestic manufacturing and trade;

iii) not before the Secretariat has verified the prospective importing countries and the registered government-owned stocks;

iv) raw ivory pursuant to the conditional sale of registered government-owned ivory stocks agreed at CoP12, which are 20,000 kg (Botswana), 10,000 kg (Namibia) and 30,000 kg (South Africa);

v) in addition to the quantities agreed at CoP12, government-owned ivory from Botswana, Namibia, South Africa and Zimbabwe registered by 31 January 2007 and verified by the Secretariat may be traded and despatched, with the ivory in paragraph g) iv) above, in a single sale per destination under strict supervision of the Secretariat;

vi) the proceeds of the trade are used exclusively for elephant conservation and community conservation and development programmes within or adjacent to the elephant range; and

vii) the additional quantities specified in paragraph g) v) above shall be traded only after the Standing Committee has agreed that the above conditions have been met; and

h) no further proposals to allow trade in elephant ivory from populations already in Appendix II shall be submitted to the Conference of the Parties for the period from CoP14 and ending nine years from the date of the single sale of ivory that is to take place in accordance with provisions in paragraphs g) i), g) ii), g) iii), g) vi) and g) vii). In addition such further proposals shall be dealt with in accordance with Decisions 14.77 and 14.78 (Rev. CoP15).

On a proposal from the Secretariat, the Standing Committee can decide to cause this trade to cease partially or completely in the event of non-compliance by exporting or importing countries, or in the case of proven detrimental impacts of the trade on other elephant populations.

All other specimens shall be deemed to be specimens of species included in Appendix I and the trade in them shall be regulated accordingly.

⁶ Artificially propagated specimens of the following hybrids and/or cultivars are not subject to the provisions of the Convention:

- Cactaceae spp. colour mutants grafted on the following grafting stocks: *Harrisia "Jusbertii"*, *Hylocereus trigonus* or *Hylocereus undatus*
- *Opuntia microdasys* (cultivars).

⁷ Artificially propagated hybrids of the following genera are not subject to the provisions of the Convention, if conditions, as indicated under a) and b), are met: *Cymbidium*, *Dendrobium*, *Phalaenopsis* and *Vanda*:

a) Specimens are readily recognizable as artificially propagated and do not show any signs of having been collected in the wild such as mechanical damage or strong dehydration resulting from collection, irregular growth and heterogeneous size and shape within a taxon and shipment, algae or other epiphyllous organisms adhering to leaves, or damage by insects or other pests; and

b) i) when shipped in non-flowering state, the specimens must be traded in shipments consisting of individual containers (such as cartons, boxes, crates or individual shelves of CC-containers) each containing 20 or more plants of the same hybrid; the plants within each container must exhibit a high degree of uniformity and healthiness; and the shipment must be accompanied by documentation, such as an invoice, which clearly states the number of plants of each hybrid; or

ii) when shipped in flowering state, with at least one fully open flower per specimen, no minimum number of specimens per shipment is required but specimens must be professionally processed for commercial retail sale, e.g. labelled with printed labels or packaged with printed packages indicating the name of the hybrid and the country of final processing. This should be clearly visible and allow easy verification.

Plants not clearly qualifying for the exemption must be accompanied by appropriate CITES documents.

⁸ Artificially propagated specimens of cultivars of *Cyclamen persicum* are not subject to the provisions of the Convention. However, the exemption does not apply to such specimens traded as dormant tubers.

⁹ Artificially propagated hybrids and cultivars of *Taxus cuspidata*, live, in pots or other small containers, each consignment being accompanied by a label or document stating the name of the taxon or taxa and the text “artificially propagated”, are not subject to the provisions of the Convention.

¹⁰ The following species are the only ones considered to be included in Appendix II: *Agalychnis annae*, *Agalychnis callidryas*, *Agalychnis moreletti*, *Agalychnis saltator* and *Agalychnis spurrelli*.

¹¹ Excluding the dependent territory of Greenland.

¹² Includes the taxon *Scleropages inscriptus*.

#¹ All parts and derivatives, except:

a) seeds, spores and pollen (including pollinia);

b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers;

c) cut flowers of artificially propagated plants; and

d) fruits, and parts and derivatives thereof, of artificially propagated plants of the genus *Vanilla*.

#² All parts and derivatives except:

a) seeds and pollen; and

b) finished products packaged and ready for retail trade.

#³ Whole and sliced roots and parts of roots.

#⁴ All parts and derivatives, except:

a) seeds (including seedpods of Orchidaceae), spores and pollen (including pollinia). The exemption does not apply to seeds from Cactaceae spp. exported from Mexico, and to seeds from *Beccariophoenix madagascariensis* and *Neodypsis decaryi* exported from Madagascar;

b) seedling or tissue cultures obtained *in vitro*, in solid or liquid media, transported in sterile containers;

c) cut flowers of artificially propagated plants;

d) fruits, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genus *Vanilla* (Orchidaceae) and of the family Cactaceae;

e) stems, flowers, and parts and derivatives thereof, of naturalized or artificially propagated plants of the genera *Opuntia* subgenus *Opuntia* and *Selenicereus* (Cactaceae); and

f) finished products of *Euphorbia antisiphilitica* packaged and ready for retail trade.

#⁵ Logs, sawn wood and veneer sheets.

#⁶ Logs, sawn wood, veneer sheets and plywood.

#⁷ Logs, wood-chips, powder and extracts.

#⁸ Underground parts (i.e. roots, rhizomes): whole, parts and powdered.

#⁹ All parts and derivatives except those bearing a label "Produced from *Hoodia* spp. material obtained through controlled harvesting and production in collaboration with the CITES Management Authorities of Botswana/Namibia/South Africa under agreement no. BW/NA/ZA XXXXXX".

#¹⁰ Logs, sawn wood, veneer sheets, including unfinished wood articles used for the fabrication of bows for stringed musical instruments.

#¹¹ Logs, sawn wood, veneer sheets, plywood, powder and extracts.

#¹² Logs, sawn wood, veneer sheets, plywood and essential oil (excluding finished products packaged and ready for retail trade).

#¹³ The kernel (also known as "endosperm", "pulp" or "copra") and any derivative thereof.

Verklaringen, voorbehouden en bezwaren

Zie voor het overzicht van de voorbehouden van partijen ten aanzien van soorten in de Bijlagen de website van CITES, <http://www.cites.org/eng/app/reserve.php>.

Argentinië, 8 januari 1981

The Malvinas are part of the territory of the Argentine Republic and, administratively, fall under the National Territory of Tierra del Fuego, the Antarctic and the South Atlantic Islands. The occupation of the islands by the United Kingdom, by means of an act of force never accepted by the Argentine Republic, has led the United Nations Organisation, in resolutions 2065 and 3160, to invite the two parties to seek a peaceful solution to the conflict of sovereignty with regard to the aforementioned islands. Negotiations are ongoing.

Bezoor door Verenigd Koninkrijk, 13 februari 1981

The Government of the United Kingdom of Great Britain and Northern Ireland have no doubt as to United Kingdom sovereignty over the Falkland Islands and their Dependencies. The United Kingdom Government therefore do not accept the declaration of the Argentine Republic claiming that the Falkland Islands are an integral part of the territory of the Argentine Republic and administered by the National Territory of Tierra del Fuego, Antarctica and the Islands of the South Atlantic.

Argentinië, 3 oktober 2005

Argentina's declaration of 8 January 1981, rejecting the declaration of territorial application presented by the United Kingdom on 2 August 1976, applies – as is clear from the wording – to all the territories that the country claimed or claims are included under the name Malvinas and Dependencies'.

Denemarken, 26 juli 1977

The ratification concerns the entire Kingdom of Denmark, including Greenland and the Faroe Islands. However, the Convention will not be implemented on the Faroe Islands until the Faroe authorities have put in place the necessary legislation, which is expected to occur in the near future. In this regard, it should be noted that legislative powers on matters concerning, among other things, the protection of nature, including the protection of species of wild flora and fauna, were transferred to the Faroe Islands under Danish law no. 137 of 23 March 1948. As very little trade in the endangered species of wild fauna and flora included in the Convention takes place on the Faroe Islands - what trade there is essentially taking place via Denmark - the delayed entry into force of the Convention on the Faroe Islands will have little actual impact on the achievement of the Convention's objectives.

Denemarken, 23 juli 2004

The question concerning the territorial application of the Convention to the Faroe Islands having been raised, Denmark would like to recall the declaration that it made when it ratified the Convention on 26 July 1977 and clarify its goal and intention, namely: until further notice, the Convention will not apply to the Faroe Islands. This has been the Danish government's position since the ratification of the Convention by Denmark, and will continue to be until further notice.

IJsland, 3 januari 2000

In the view of Iceland the inclusion of some species in the appendices of the Convention is inconsistent with Article II of the Convention and the biological criteria agreed on within CITES for such inclusion. A number of the cetaceans which are included in the appendices are a good example of this.

It was decided that, upon acceding to the Convention, Iceland would only enter reservations with regard to the species that occur within its national jurisdiction which are, in the view of Iceland, inappropriately included in the appendices. This should, however, not be interpreted as Iceland's acceptance of the appropriateness of all other inclusions in the appendices.

If new scientific evidence will show that species regarding which Iceland has made reservations are in fact appropriately included in the appendices, Iceland will reassess the relevant reservations.

Iceland considers it to be important in order for CITES to fulfill its purpose that a review of all present inclusions in the appendices will be carried out in an effective and transparent manner and completed as soon as possible. The review should be objective and ensure that all inclusions in the appendices are consistent with Article II of the Convention and the biological criteria agreed on within CITES.

Syrië, 30 april 2003

The accession of the Syrian Arab Republic to this Convention shall in no way signify recognition of Israel or entail entry into any dealings with Israel in the context of the provisions of the Convention.

Bezoaar door Israël, 10 november 2003

The Government of the State of Israel has noted that the instrument of ratification of the Syrian Arab Republic to the above-mentioned Convention contains declarations with respect to the State of Israel.

The Government of the State of Israel is of the view that such declarations, which are explicitly of a political nature, are incompatible with the purposes and objectives of this Convention.

The Government of the State of Israel therefore objects to the aforesaid declarations made by the Syrian Arab Republic to the Convention on international Trade in Endangered Species, 1973.

Verenigde Staten van Amerika, 28 augustus 1981

At the recently concluded third meeting of the Conference of the parties in New Delhi, India, Appendix II of CITES was amended by adding to it all but three species of the order Psittaciformes not otherwise listed. This amendment was made largely on the basis of Article II, paragraph 2 (B), often known as the "look-alike" provision. At the meeting, we indicated that we too were concerned about the traffic in Psittacines and had made proposals for listing a number of species. We also indicated, however, that we were greatly concerned with the administrative capability of all parties to issue meaningful permits for the export of these birds, and to enforce the Convention properly in their regard, that we did not believe that the "look-alike" listing was fully justified in many cases, and that we were prepared to provide evidence that only 13 species of these birds presented serious enough identification problems to merit listing. When a vote was taken on the amendment, we voted in opposition to the broad listing.

The United States seriously considered entering a reservation on this listing to demonstrate concern over its appropriateness. We decided not to enter a reservation for a number of reasons, but instead to make known our concern through this communication.

The United States, which hosted the 1973 negotiating conference at which CITES was signed, was the first country to ratify CITES and continues to be a strong supporter of the treaty and its goals. We firmly believe that faith in the integrity of the appendices, both within the United States and in all other countries is essential to assure the success of CITES. This integrity is maintained through the development of principles and procedures for listing and through adherence to those principles and procedures by all the parties.

At New Delhi we joined with Canada in proposing criteria for the addition and deletion of "look-alike" species. This was in keeping with our concern that massive listings of animals and plants either for monitoring purposes (not a proper basis for listing) or for "look-alike" purposes where they are not justified would only weaken the integrity of the appendices and could serve as grounds for an initiative to adopt the so-called reverse listing concept. We strongly support the development and use of identification manuals to reduce problems in controlling trade in "look-alikes". We seriously question the legality, administrative feasibility, or desirability of reverse listing and believe that, at a minimum, it requires a great deal of further study.

We believe that attention must be devoted to enhanced cooperation of authorities in importing countries regarding the interception of shipments of all wildlife species traded in violation of the conservation laws of exporting countries. While the United States has legislation providing

authority for the interception of such shipments, most other countries do not. Listing large groups of species in Appendix II helps address this problem, but at the cost of reducing the integrity of the appendices. We suggest greater use of Appendix III to control illegal trade in species that do not fully meet criteria for inclusion in Appendix II.

We chose not to enter a reservation on the amendment to the listing of Psittacines because we believe better ways are available to resolve our different points of view. We also believe that the entering of reservations complicates the administration of the Convention for management authorities and enforcement officers and complicates compliance with CITES by persons involved in legitimate trade. However, we urge you to consider our concerns in the context of both the 10-year review of the appendices called for at the New Delhi meeting and the preparations for the fourth meeting of the Conference of the parties.

We look forward to further discussions of these and other points over the next several years as we work with you to make CITES a meaningful and effective tool for the conservation of wild animals and plants.

Japan, 20 augustus 1990

The Embassy of Japan presents its compliments to the Federal Department of Foreign Affairs and, with regard to the Notification p.o.412.30 on 25th June concerning the Acceptance of the amendment to Article XI (3)(a) of the Convention on International Trade in Endangered Species of Wild Fauna and Flora by the Soviet Union, has the honour to inform the latter of the following view of the Government of Japan.

In accordance with article XVII (3) of the above-mentioned Convention, the amendment should enter into force for Soviet Union also 60 days after it deposits its instrument of acceptance of the amendment. The Government of Japan cannot find any grounds for justifying the entering into force of the above-mentioned amendment on 1st January 1991 as was designated by the Soviet Union.

Wijziging van 30 april 1983

Goedkeuring van de wijziging is voorzien in artikel XVII, derde lid, van de Overeenkomst.
