Memorandum

(Annexed to the Protocol of February 26th, 1955, of the Joint Commission mentioned in Article 4 of the Commercial Agreement of December 30th, 1947, between the Netherlands and Sweden).

1. The principles as agreed upon in the exchange of letters of the 30th of December, 1947, between Mr. Ståhle and Mr. Teppema with regard to the *issuing of licences* will continue to be observed during the transitory period between the agreement for the period 1st of March, 1954 to the 28th of February, 1955, and the present Protocol.

2. With regard to the *exports and landings* of fish from Sweden to the Netherlands the following arrangement has been agreed.

Sweden is entitled to use up to 50 % of the agreed quota of Swedish caught fish for direct landings in the harbour of IJmuiden at a maximum of 15 Swedish fishing boats each week, the catch to be sold by auction, and 50 % for export of fish in boxes.

If the quota for commercial export should not be utilized as calculated the Netherlands authorities are willing

a) to discuss an increase of the percentage for direct landings

- b) to examine the possibilities of an increase of the number of fishing boats entitled to direct landings and
- c) to examine the possibilities of facilitating the imports of fish on a commercial basis.

It is understood that as soon as three fourth of the quota agreed upon has been utilized the Netherlands authorities will at the request of the Swedish authorities be prepared to discuss the possibilities of an increase.

3. It is agreed that the quotas mentioned in the lists annexed to the Protocol do not include *transit trade*. The liberalization of imports does not cover commodities bought in transit. Consequently, transit trade transactions must be authorized after individual consideration by the competent authorities.

4. It has not been considered necessary in the present supply position to maintain the *mutual export licence commitments* for liberalized products foreseen in the Lists I and II, attached to the Protocol of the Joint Commission of February 20th, 1952 and February 24th, 1953, including the respective statements concerning individual items. Should, however, the situation on the international market change, it is agreed that the Swedish and Dutch authorities will issue export licences with due regard to the quotas appearing in the above mentioned Lists.

5. It is understood that the *wording of the quotas* in List I and List II will serve as a guide for the issuing of licences. The statistical numbers are thus only of an indicative character.

6. With regard to *List I* attached to the Protocol of the Joint Commission of to-day's date the following comments have been made:

<i>Acid oils of liquid vegetable oils</i>	1.000.000	It is understood that the acid oils licensed under this quota shall be derived mainly from liquid vegetable oils. However, it will not be considered detrimental to the export interest if it is found that the oils exported contain a small percentage of other kinds of oils.
<i>Rapeseed and rapeseed oil</i>	P.M.	The Swedish authorities are prepared to grant export licences
<i>Rapeseed oil cakes and/or meal</i>	P.M.	and the Netherlands authorities are prepared to grant import licences for these products in so far as contracts are made between exporters and importers.

*Rapeseed and
rapeseed oil*
*Rapeseed oil cakes
and/or meal*

Malleable cast iron fittings

P.M.

As long as the present import arrangement is in force the re-institution of the previous quota of 500.000 Sw.Cr. cannot be taken into consideration. Should this arrangement come to an end and should the Netherlands authorities decide upon the re-institution of bilateral quotas the latter are prepared to enter immediately into discussions with a view to safeguarding the Swedish share in the Netherlands market.

Miscellaneous

21.000.000
Sw.Cr.

Two thirds of this quota will be set aside for imports into the Netherlands of goods not specified in List I. Licences will be issued by the Netherlands authorities under this earmarked amount in the choice of the Swedish exporters and on condition that the Netherlands importer can produce a copy of the corresponding Swedish export licence or a recommendation to this effect by the Swedish Legation in The Hague. This rule, however, does not apply to commodities which fall under the Netherlands agricultural regulation system.

7. With regard to *List II*, attached to the Protocol of the Joint Commission of today's date, the following comments have been made:

*Salted herring
(Matjes)*

P.M.

If any price-control regulations regarding salted herring (Matjes) should be established in Sweden, the Swedish and Netherlands authorities will as soon as possible discuss the export- and import-prices of salted herring to be imported from the Netherlands into Sweden. Agreement being reached Swedish importers will be entitled within

Apples and pears

P.M.

the frame of their individual import quotas, to obtain licences for imports of matjes herring from the Netherlands according to their wishes.

The Swedish authorities will allow the import of apples and pears after the end of the Swedish fruit season, without quantitative restrictions.

The Swedish authorities will furthermore use their best endeavours in order to meet the wish expressed by the Netherlands delegation that the import regulations in 1955 should be approximately identical with those in force during 1953. The Swedish Delegation, however, stated that the definite decision could not be reached before adequate information about the Swedish crop is available. Further discussions on the subject will take place in Stockholm not later than September 15th, 1955.

Cheese

P.M.

The Swedish authorities will continue to grant import licences without any quantitative limitations.

Stearin

P.M.

The Swedish authorities will continue to allow import without any quantitative limitations.

Miscellaneous

21.000.000

Sw.Cr.

Two thirds of this quota will be set aside for imports into Sweden of goods not mentioned in List II.

Licences will be issued by the Swedish authorities under this earmarked amount in the choice of the Netherlands exporters and on condition that the Swedish importer can produce a copy of the corresponding

Netherlands export licence or a recommendation to this effect by the Netherlands Legation in Stockholm. This rule however, does not apply to commodities which fall under the Swedish agricultural regulation system. Nevertheless, under this quota will also be licensed miscellaneous agricultural products, amongst others consumption seeds, dried vitamin preparations for feeding purposes.

8. It has been confirmed that if, for unforeseen reasons, either the Netherlands or Sweden should be compelled to restrict the present liberalization measures as regards their respective imports the Joint Commission should, at the request of either Party, convene at the earliest possible date in order to discuss what steps should be recommended to meet the new situation.

9. With reference to the exchange of letters of June 18th and June 29th, 1946, between Mr. Ståhle and Mr. Teppema it has been confirmed that the Netherlands and Swedish authorities will leave it to the importers and exporters to settle conditions for their transactions, especially with regard to the arrangement of the purchases on a f.o.b. or c.i.f. basis.
